

# Maximizing Deliveries and Saving Costs

Centeron Wireless Tank Monitoring technology improves delivery times and saves customers money

“Using Centeron Wireless Tank Monitors for over 3 years, we have been able to expand our delivery region and monitor inventories from great distances, doubling our delivery radius overnight.

Centeron’s wireless tank technology gives our customers a sense of security that they will receive reliable on-time deliveries and eliminate run outs. The Centeron Webview mobile app also provides great benefits to us and our customers as they can track inventory from far away. It allows us to maximize our deliveries and lower our costs by making fewer trips while maintaining the most efficient deliveries possible for our customers.

There is no doubt in my mind that Centeron Wireless Tank Monitors have saved Howell Oil and its customers money.”

Jared Howell  
Business Development Manager  
Howell Oil Company, Inc.
